

Thank you for booking a travel consultation at the Robens Centre.

As you have not attended one of our travel clinics before, please complete the **Travel Risk Assessment Form** and bring the completed form with you when you attend your appointment:

- Please print this form (4 x A4 pages)
- Complete the following sections:
 - **Page 1** - All of the first page
 - **Page 2** - Top half of the second page (ie do not complete the section entitled VACCINES GIVEN)
 - **Page 3** - If you are interested in discussing anti-malarials, please complete the tick boxes under the section entitled MALARIA MEDICATION
 - **Page 4** - Do not complete the last page – you will be asked to sign the consent only after you have seen the Travel Consultant
- Bring the form with you when you attend your appointment

If you have received vaccinations in the past, you should be able to obtain a print out of your vaccination history from the practice where you had them. However, if you are unable to obtain this information or are unsure what you have received in the past please state “Not Sure” or just leave blank and then discuss with the Travel Consultant when you attend your appointment.

You do not need to contact us again if you have any difficulty printing or completing this form: please just attend your appointment and explain to the Receptionist who can provide you with a blank form and/or help you complete as necessary.

We look forward to welcoming you to the Robens Centre.
